Geometrical terrariums

50% Recycled

These trendy functional geometrical shaped terrariums are made by our Fair Trade supplier in Moradabad, India.

Terrariums are miniature gardens contained in a glass container sealed or open-air. They can reside in many different interiors due to their small scale. These terrariums that we're introducing are stunning and will make fantastic centrepieces or additions to any room.

Hexagon, pyramid and diamond shapes - works of art that will show off the plantscapes and will surely gain attention from anyone.

Brilliant gift for anyone, terrariums are easy to maintain. Keep in a bright room but not in direct sunlight. Open air terrariums

require watering every few days.

Sealed ones do not require watering frequently as with them being enclosed, an ecosystem is created - they are self-sufficient

Note: Plants are not included.

Save our elephants!

The main threat to elephants is loss of habitat. It's especially severe for Asian elephants, where habitats are increasingly fragmented by roads, logging, agriculture and new building. Poaching for ivory is a bigger issue in Africa. Both species are threatened by climate change.

Elephants need a huge amount of water, difficult enough anyway, but climate change is bringing more and more droughts and unpredictable weather patterns. Anything we can do to tackle the climate crisis will help!

Bike chain, nuts and bolts

These bike chain products are made in a Fair Trade workshop in Moradabad, Northern India.

The recycled chains come from two sources: 60% are collected from bicycle repair centres and 40% are cut-offs/loose waste from factories and big shops.

Such quirky items always catch customers' attention and are excellent gifts for men and all passionate cyclists!

Kaisa grass Laundry baskets

These large robust baskets are made out of Kaisa grass. They are carefully hand-woven by skilled women in producer groups in Bangladesh.

The artisans purchase the materials from the local market and clean the grass before moving onto the dyeing process. After the grass has been dyed, it is then left in the sunlight to dry. Shortly after, the artisans weave the baskets with the grass using a traditional technique

Perfect for everyday use. Primarily made with the intention of being a laundry basket, but may be used for storing other things like toys, blankets or even firewood!

We love these styles
- recommended!

Our recycled rugs are a bestselling range and these contemporary 'ombre' designs are especially effective in minimalist settings. Long lasting and top quality.

We're delighted to announce that our supplier Aspiration is now a pending member of WFTO (World Fair Trade Organisation). Aspiration was founded by Padam Kapoor (now retired), an expert in Indian handicrafts who for many years promoted the interests of handcraft artisans to the Indian government.

Recycled rag rugs and mats

Rag rugs used to be made in Britain, in the olden days (not so long ago) when we didn't waste things that could be used again. As late as the 1960s, the rag n' bone man could still sometimes be seen in our streets on his horse and cart, tinkling his bell and shouting 'rag 'n bo-o-nes' as he went along (remember Steptoe & Son?). Rags – any form of clothing – were a valuable commodity, used for such purposes as carpet underlay, mattress stuffing and seats on trains and buses.

Bestselling range

Great for students!

Handwoven by local artisans near Delhi, these rag rugs (right) provide income for Karm Marg, the home for street children which we support.

Made from leftover fabric remnants from the garment industries, rag rugs are affordable, last for years and can be machine washed.

JUG064
178x100cm

We introduced these rugs in 2021 and they've sold well, but we've reduced them – we over-ordered because of Covid and now we need to make space in our warehouse; take advantage of this great offer while stocks last! Lots of other rugs and doormats reduced too!

As we continue on our quest to combat climate change, we are prioritising products which make use of discarded, waste materials. These mats do just that, as well as providing an income for many artisans who would otherwise struggle to find work.

Doormats

Our supplier Aspiration in New Delhi was founded 40 years ago by Padam Kapoor, who was passionate to retain Indian handicraft skills and traditions. Now as we try to find a use for all the waste that litters the streets and clogs up India's rivers and countryside, Aspiration's artisans use their skills to turn this waste into attractive, hard-wearing designs.

Throws and cushion covers

From our Fair Trade supplier Asha Handicrafts in Mumbai, India. We introduced these last August and they've been really popular.

They're perfect for the cooler months - wrap up warm by the fire with a hot chocolate.

Brighten up your furniture with the multi-coloured diamond design - a good addition to our multi-coloured range.

Available in 2 different sizes and presented folded with a bow making for a perfect gift.

As climate change awareness grows, RECYCLING is more and more on trend! Especially of cotton, as consumers realise its harmful effects.
