## Eco Friendly Salt Lamps

Soothing, natural, & attractive lighting that looks stunning in any room.

Great night lights, perfect for those who need help to get to sleep.

Beautiful ambient lighting that doesn't cost the Earth!

Like you, we at Shared Earth care passionately about protecting the environment.

That's why our salt lamps come with LED light bulbs as these cut electricity consumption, carbon emissions and energy bills by 90% or more while giving just as much light.

## salt soap

This 100% rock salt 'soap' contains natural antibacterial properties. The unique pinkish hue is derived from trace elements including Iron, calcium, magnesium, and potassium.

This soap does not lather up, of course. It can be rubbed directly on to the skin or, for sensitive skin types, it can be rubbed in to the hand or on to a bath mitt and then applied to the skin. Alternatively it can be dropped into a bath for five minutes (remember to then let it dry). Salt soap is claimed to help alleviate the symptoms of a variety of dermatological conditions such as: eczema, acne, psoriasis, athlete's foot and dermatitis.

## Hand-carved soapstone

Our stone items are hand carved by the master craftsmen of Agra, descendants of the artisans who worked on the Taj Mahal. These stone pieces are made from Palewa (grey) or Gorara (beige/ brown) stone, so there can be interesting variations in the colour and patterns within the stone, making each product unique.
